

Order table

Junction boxes with protection units are designed for protection against overloads and short circuits in individual DC circuits up to 20A, with voltage up to 30V for installation on ships, vessels and floating craft of unrestricted navigation area.

Example of entry in design documentation and when ordering a box with rated current 20A fuse links, with three cable glands, for unrestricted navigation area:

Box KC3Б-20.03.OM1

Degree of protection: IP56 per GOST 14254-96.
OM climatic version, installation category 1 per GOST 15150-69.
The boxes comply with OST 5.6098-77.

Certificates:

- RMRS
- RRR
